### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: in claim 1, the limitations found in lines 5-14, "the covering a portion of the resin layer, which is exposed from intervals separating the conductive patterns, with a resist, wherein plasma is irradiated onto the top surface of the conductive foil, and wherein a rear surface of the conductive foil is eliminated until the resin layer is exposed at the rear surface of the conductive foil to electrically separate the respective conductive patterns, and wherein contaminants attached to side surfaces of the separation grooves are removed by ions reflected by the side surfaces," cannot be combined from the prior art of record. The prior art of record fails to teach, in combination, the process features.
